POOLPOSITION

design by Jirko Bannas

Les baignoires *Poolposition* en terrazzo ont la forme originelle de la vie : l'œuf.

Grâce à un procédé de transformation des plus nouveaux, utilisant à la fois le savoir faire des chantiers navals pour les coques des bateaux et le terrazzo, un matériau traditionnel, naturel, élégant, historique, héritier de l'Antiquité et de la Renaissance, il est d'un rendu inimitable. Le terrazzo est résistant au gel, à la chaleur, aux acides. Cette baignoire unique allie une forme parfaite, un matériau robuste à une tradition ancestrale.

Nombreuses finitions.

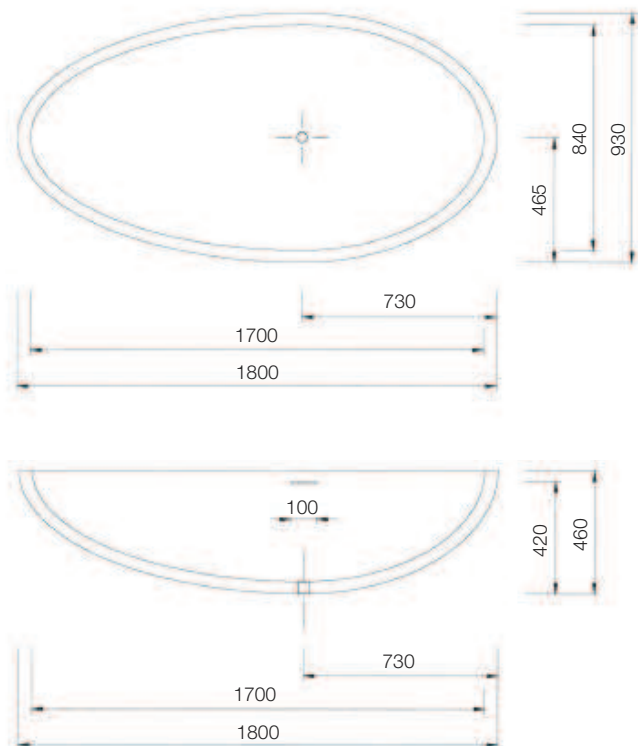

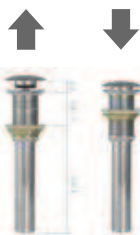

POOLPOSITION

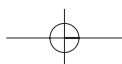

Dimensions de la baignoire

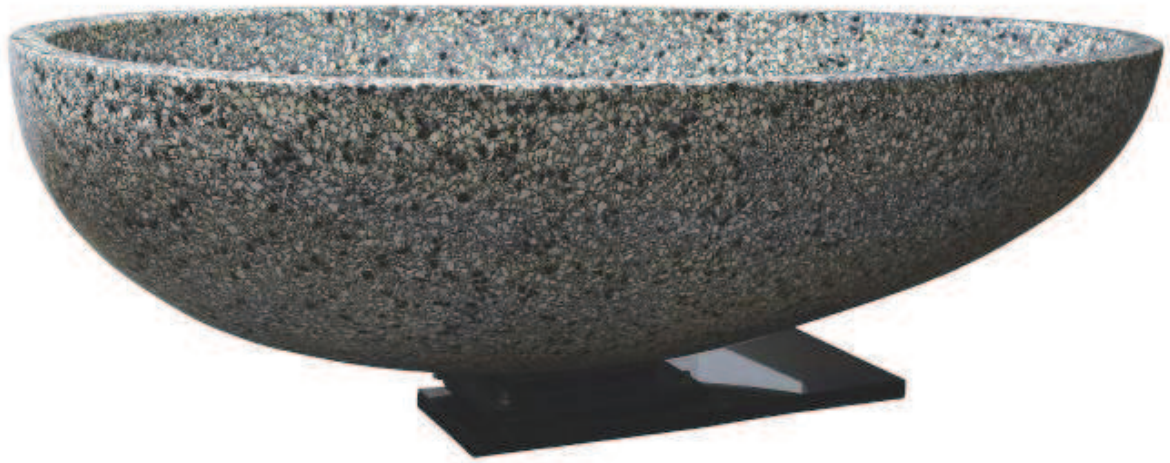

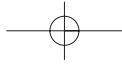

Vidage

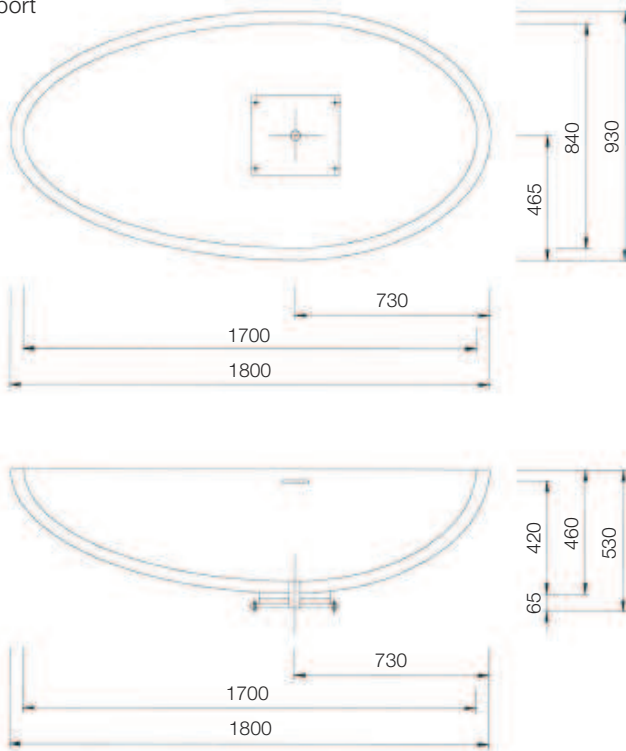

Siphon avec le trop-plein.
La baignoire est munie d'un trop-plein invisible construit dans la masse.

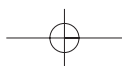

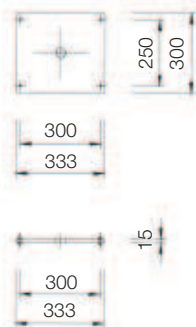

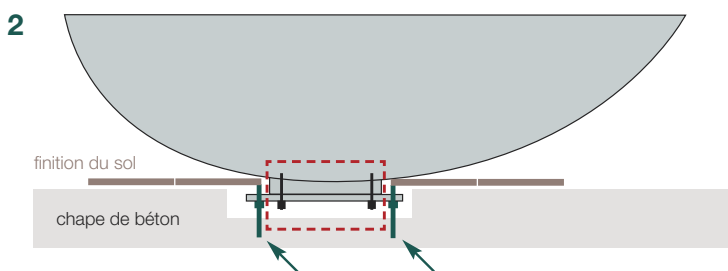

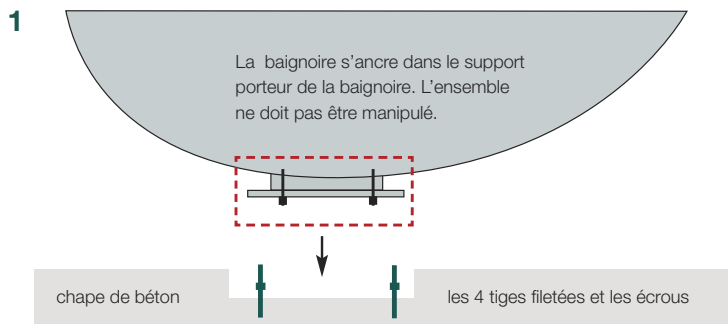

Dimensions de la baignoire avec son support

Support fixé sur le sol avec les 4 tiges filetées

MONTAGE

1. Tracer le positionnement des 4 fixations au sol.
2. Percer la chape pour positionner les chevilles qui vont recevoir les tiges filetées de la baignoire.
3. Placer la baignoire avec son support d'ancrage.
4. Serrer les boulons des 4 tiges.
5. La finition du sol (pierre, carrelage ou résine) peut être installée.

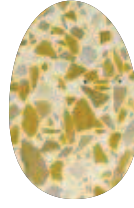

MATÉRIAUX

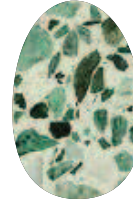

Références des différents mélanges proposés avec les cailloux de marbre coulés dans le ciment.
